

Pimlico Cast Iron

660mm High

Specialist UK Manufacturer of Cast Iron Radiators

Paladin Radiators

Our Pimlico cast iron radiator also known as the “duchess radiator” is a traditional late Victorian cast iron radiator more widely seen in later Edwardian homes. An elegantly simple design depicting 2 columns yet only 110mm in depth, giving a contemporary feel for the modern room as well as an authentic feel for the period home. The perfect choice for the traditional quaint cottage or small traditional room as well as a great choice for the modern home where space is at a premium such as the bathroom.

Our Pimlico cast iron radiator is a 2 column cast iron radiator and is also available in 460mm and 760mm High.

Code	Sections	Length (mm)	Output		Weight (Kg)	Water Content (Ltr's)
			75 / 65 / 20			
			Watts	BTU's
