

Saint Paul Cast Iron

800mm High

Specialist UK Manufacturer of Cast Iron Radiators

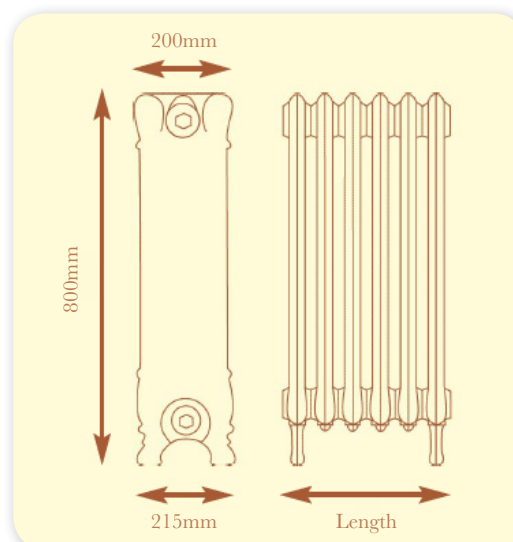

Paladin Radiators

Our Saint Paul cast iron radiator is a truly remarkable radiator combining cherubs, dragons and lions intertwined together with vines. The Saint Paul radiator was originally manufactured in 1842 by the American Radiator Company and was described by them in their sales catalogue of 1897 as “a work of art in iron”. The Saint Paul cast iron radiator is the perfect choice for a dramatic centre piece in any room setting. A magnificent cast iron radiator particularly eye catching in large room spaces where heat efficiency is required yet beauty is paramount.

The Saint Paul cast iron radiator comes to life when choosing the antiqued or highlight paint effects or indeed when hand polished. The cherubs and dragons dance on the surface with vibrance.

Code	Sections	Length (mm)	Output		Weight (Kg)	Water Content (Ltr's)
			75 / 65 / 20 Watts	BTU's
