

# Sloane Cast Iron

## 450mm High

Specialist UK Manufacturer of Cast Iron Radiators

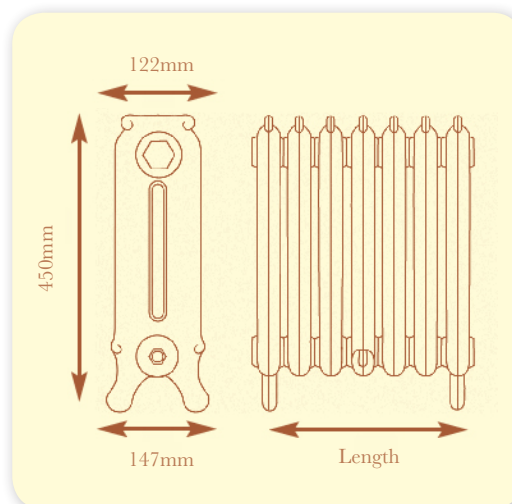

Paladin Radiators

The Sloane cast iron radiator design was first produced in America in the 1880's and was later manufactured in Britain under the brand name "Ideal". The Sloane cast iron radiator design is widely known, due to its finely etched detail, as the curly eared princess.

The Sloane or eared princess radiator has a wonderfully fine etched detail along its edge crowning to its top with a curled detail. Beautifully elegant, the Sloane cast iron radiator was installed in both public and privately owned buildings during the late Victorian era. The simple handsome design of the Sloane cast iron radiator provides a contemporary look for the more modern setting as well as an authentic look for the period home. The Sloane cast iron radiator is also available in 750mm High.

Code	Sections	Length (mm)	Output		Weight (Kg)	Water Content (Ltr's)
			75 Watts	65 BTU's
